Descartes is widely acknowledged as a central figure in the origins of modernity the nature of his thought and of the role it played is however a matter of considerable dispute among experts the Cartesian mind is a significant contribution to this debate it covers the full extent of his work not only placing it in its historical context but also exploring its reception legacy and contemporary significance comprising over 40 chapters by an international team of distinguished scholars the collection is divided into 3 parts historical context philosophical themes reception and influence within these parts key topics are addressed including Descartes's life and works Platonism scholasticism stoicism skepticism atomism meditation method the self God will and freedom mind and body biology and medicine causation mathematics the natural sciences philosophy of science ethics and the origins of idealism Descartes's reception and legacy within science and philosophy from the seventeenth century to our days including current analytic and continental traditions as well as within the broader contemporary culture also receive sustained attention Descartes's work is central to all areas of philosophy including epistemology metaphysics philosophy of mind philosophy of science and ethics as such the Cartesian mind is essential reading and an indispensable tool for all students and researchers in the discipline

includes section book reviews

this volume collects essays which are thematically connected through the work of Kent Emery Jr to whom the volume is dedicated a main focus lies on the attempts to bridge the gap between mysticism and a systematic approach to medieval philosophical thought the essays address a wide range of topics concerning a the nature of the human soul in philosophical and theological discourse b medieval theories of cognition natural and supernatural self knowledge and knowledge of God c the human soul's contemplation of and union with God d the tradition of the modes of theology in the middle ages e the relation between philosophy and theology various articles are dedicated to major figures of the 13th and 14th century philosophy others display new material based on critical editions contributors are Jan Aertsen Stephen Brown Bernardo Carlos Bazán William J Courtenay Alfredo Santiago Culleton Silvia Donati Bernd Goehring Guy Guldentops Daniel Hobbins Roberto Hofmeister Pich Georgi Kapriev Steven P Marrone Stephen M Metzger Timothy B Noone Mikolaj Olszewski Alessandro Palazzo Garrett R Smith Andreas Speer Carlos Steel Loris Sturlese Chris Schabel Christian Trottman and Gordon A Wilson

contains reviews abstracts and bibliography of the most recent theological and philosophical literature

during the seventies there was a revival of systematic philosophy in general and of ontology in particular at the same time especially in Anglo-Saxon thinking systematic philosophy interacted very creatively with the history of medieval philosophy it seems to us that the work of John Duns Scotus 1266-1308 could substantially benefit these developments not only this but his works cries out to be developed across the whole spectrum of theology that science which in the middle ages ruled all others *regina scientiarum* this book is the outcome of several years of scholarship and friendship during which guided by Dr A Vos we have studied the work of Scotus our research group is connected to the theological faculty of Utrecht and to the Dutch Franciscan study centre Stichting Franciscaans Studiecentrum this study presents a translation and commentary of *Lectura I 39* which in our view is notable as one of the key texts in the history of systematic theology and philosophy in this book we have used specialist language and argumentation but at the same time have taken pains to make it useful to a circle of interested readers wider than simply that of those well versed in medieval scholasticism in this way we hope to present the difficult but instructive work of the subtle master doctor subtilis in such a way as to make it attractive to other scholars and students in theology and philosophy

the founding fathers wrote the constitution at a level sufficiently general to guide lawmaking while avoiding great detail this four page document has guided the United States of America for more than two centuries the supreme court has parsed the document into clauses which plaintiffs and defendants invoke in cases or controversies before the court some

like the interstate commerce clause are central to the survival of a government of multiple sovereignties the practice of observing case precedents allows orderly development of the law and consistent direction to the lower courts the court itself claimed the final power of judicial review despite efforts to the contrary by the executive and legislative branches of the national government and the state supreme courts the court then limited its own awesome power through a series of self imposed rules of justiciability these rules set the conditions under which the court may exercise the extraordinary final power of judicial review some of these self imposed limits are prudential some logical and some inviting periodic revision this book examines the detailed unfolding of several constitutional clauses and the rules of justiciability for each clause and each rule of justiciability the book begins with the brilliant foundations laid by chief justice john marshall then to the anti federalist era the civil war the dominance of laissez faire and social darwinism the great depression redirection the civil rights era and finally the often hapless efforts of chief justice rehnquist

When people should go to the books stores, search introduction by shop, shelf by shelf, it is essentially problematic. This is why we provide the book compilations in this website.
